Ship Repair West Collective Agreement- Signed!

We are very pleased to report that the Ship Repair West collective agreement was signed today, June 30, 2017. As per the collective agreement, the employer now has 120 days from date of signing to implement all terms and conditions of the new agreement, and we expect that the employer will be able to meet those dates. Other Bargaining Agents who have recently signed agreements have indicated that the employer met their implementation dates, and in fact had them done early in some cases.

Happy Canada Day, we hope you all enjoy the 150 year celebrations of this great country!

In Solidarity,

Des Rogers
President
FGDTLC (W)
