

# FMF Cape Breton – Op LASER Update 9 April 2020

**Current Posture:  
3C “Protect” - Minimum Manning**

## Update Message

With immediate sailing requirements met, we must now look further ahead. We will soon be planning and executing work for the next deployer, and will do this in a reduced-manning environment with extra precautions to protect ourselves and ships’ crews. A ‘*Safe While Working*’ procedure will be issued in the coming days. As we carefully get back to (limited) work, please ensure you follow this procedure, and discuss with your supervisor any issues or improvements you identify with it.

Please continue to watch out for yourselves, your subordinates, colleagues, friends and family. Some of us suddenly have much more to do, and some of us much less, including less interaction with others – this can be stressful for all, so please let your supervisor or someone else know if it is getting to be too much for you. We’re all in this together.

Above all, please have a relaxing long weekend!

## Work Priorities

- Support CAL, REG & BRN at sea as required
- Limited support to DND contractual requirements in VAN & OTT
- Plan to prepare/support follow-on forces (WIN/CAL, VIC & SAS)
- Support other safety/urgent requirements as directed

*Due to limited capacity, please do not use DVPNI unless specifically authorized.  
Report your status to your supervisor daily by 09h00.*
