

FMF Cape Breton – Op LASER Update 1 June 2020

Current Posture: Transition from 3C “Protect” to 3B “Sustain”

Update Message

Today is the official start date for ‘Business Resumption’. This will be a gradual process over the next three weeks or so. The Service Delivery work force has been split into two teams that will alternate working one week onsite then one week at home on standby. The Operations Department and others have started onsite today to begin re-planning the immediate priority work periods. The Production, Engineering and Unit Support Departments will ramp up to begin executing work periods starting 15 Jun 20. Other personnel may be directed to work onsite on an as-required basis. Of course, personnel from across all departments have been, and continue to be, onsite to support critical work and setup for Business Resumption.

The next few weeks will be new ground for all of us, and despite the considerable amount of planning and setup that has occurred, there may be some bumps along the way. Please remain flexible, follow COVID precautions, raise any issues with your supervisor or manager, and stay safe and healthy.

Work Priorities

- Support CAL, REG & BRN to facilitate their return to sea;
- Limited support to DND contractual requirements in VAN & OTT;
- Plan to prepare/support Op & Tech Schedules (WIN; REG; VIC; TEK); and
- Support other safety/urgent requirements as directed.

Due to limited capacity, please do not use DVPNI unless specifically authorized. Report your status to your supervisor daily by 09h00.
