

FMF Cape Breton – Op LASER Update 11 June 2020

Current Posture: Transition from 3C “Protect” to 3B “Sustain”

Update Message

The planning team has spent the last couple of weeks re-planning WINNIPEG’s SWP, as well as planning for REGINA’s DRP in July. We will ‘officially’ kick off the Production and Engineering Departments’ return to work under the Business Resumption Plan on Monday, with the ‘Green’ team gradually starting throughout the week (noting, of course, that plenty of Eng and Prod personnel have already been onsite for work period planning or to execute critical work).

We are also welcoming the crew of HMNZS *Te Kaha* back to Esquimalt within the next few days. Other than a small ‘skeleton’ crew, most of them returned to New Zealand in March. They are excited to be preparing for sea trials in September, and we have a small amount of work to finish in TEK that will be critical to getting the ship ready.

Stay healthy, and we look forward to seeing more of us back at work next week!

Work Priorities

- Execute work periods to support Op Sched (WIN, REG, VIC, TEK);
- Targeted support to DND contractual requirements in VAN & OTT; and
- Support other safety/urgent requirements as directed.

Due to limited capacity, please do not use DVPNI unless specifically authorized. Report your status to your supervisor daily by 09h00.
