

FMF Cape Breton – Op LASER Update 29 June 2020

**Current Posture:
3B “Sustain”**

Update Message

Welcome back after another great Victoria weekend! A few shops were working hard all weekend on overtime to achieve some critical requirements for HMCS *Winnipeg* to deploy at the end of the summer with all necessary capabilities – thanks to all those involved. Our priorities continue to be to prepare VIC and WIN to sail, and also to prepare REG and TEK. On top of that, though, we are of course pulled in many different directions – including supporting VAN and OTT in DWP, CHI in pre-TDWP and COR in EDWP, and also planning for upcoming work periods for CAL, VAN and REG. The CO will shortly release a priority message to ensure that the scope of support demanded of FMFCB, and its prioritization, is well-understood both internally and externally.

Today’s update also marks a slowing-down in updates to the work force. The twice-weekly updates have got us through the first three months of our ‘new normal’. You will continue to see updates on a bi-weekly basis moving forward, but of course with other communications via the newsletter, CO’s orders, messages and yard-wide emails.

Work Priorities

- Execute work periods to support Op Sched (VIC, WIN, REG, TEK);
- Targeted support to DND contractual requirements in VAN & OTT; and
- Support other safety/urgent requirements as directed.

*Due to limited capacity, please do not use DVPNI unless specifically authorized.
Report your status to your supervisor daily by 09h00.*
