

FMF Cape Breton – Op LASER Update 13 July 2020

Current Posture: 3A “Surge”

Update Message

Today marks the start of our shift to our “3A Surge” posture. Our objective is to maximize Service Delivery output while adhering to the requirements of the ECP. Those who physically work in ships, submarines and shops will generally be required onsite, but some others may be directed to continue to work from home where this is needed to ensure adequate physical distancing in certain work areas. We are likely to learn a lot about what works and what doesn’t work over the next couple of weeks, and we’ll adapt as necessary, so please continue to maintain your flexibility.

How long will this last? The short answer is that we don’t know. However, the intent is that, as long as the risk of COVID remains low, we will continue in the “Surge” posture indefinitely, in order to catch up on as much fleet maintenance as possible. This will then reduce the impact on RCN readiness if we need to revert to the ‘3B’ or ‘3C’ posture in the future, if there is growth in COVID cases. Let’s do what we can today to get ships and submarines to sea, so that the RCN can contribute to national and international security now and in the future, despite the current pandemic.

Work Priorities

- Execute work periods to support Op Sched (VIC, WIN, REG, TEK);
- Targeted support to DND contractual requirements in VAN & OTT; and
- Support other safety/urgent requirements as directed.

*Due to limited capacity, please do not use DVPNI unless specifically authorized.
Report your status to your supervisor daily by 09h00.*
