

FMF Cape Breton – Op LASER Update 21 September 2020

**Current Posture:
3A “Surge”**

Update Message

HMCS *Victoria* sailed 18 Sep 20 after a long work period at FMFCB. We put a significant amount of collective effort into executing physical work, coming up with engineering solutions, providing evidence (OQE) that all work and systems are safe, and we ultimately supported licensing of the submarine. A huge thanks to all those involved in the project for their efforts – this was a challenging journey, but the result is that we have returned a strategic capability to the West Coast – Bravo Zulu!

We are now focused on preparing VAN to return to the dockyard, executing CAL’s Short Work Period, completing surveys, paint, and preservation of the ‘Camel fenders’ in the dry dock, and supporting a number of other units. We’re also planning to dock REG later in the fall for pre-DWP surveys, which will have a positive effect on the amount of maintenance that can then be executed during next year’s DWP.

Thanks for everyone’s continued hard work, and welcome to Fall!

Work Priorities

- Execute work periods to support Op Sched: CAL, Camel fenders;
- Targeted support to DND contractual requirements in VAN & OTT; and
- Support other safety/urgent requirements as directed.

*Due to limited capacity, please do not use DVPNI unless specifically authorized.
Report your status to your supervisor daily by 09h00.*
