

FMF Cape Breton – Op LASER Update 10 January 2022

**Current Posture:
3B “Sustain”**

Update Message

Welcome back from the holiday break, and welcome to 2022! Hopefully everyone got at least a bit of a break over the two long weekends. We had a strong start to the year, undocking HMCS *Calgary* despite significant impact due to both the weather and the COVID situation. Thanks to all those who made this a success – it was a very long night from Friday to Saturday for those on the ground.

Our priorities for this week will be completing CAL’s work period and progressing HMCS *Winnipeg’s* work period, as well as executing critical work in HMCS *Vancouver* and HMCS *Corner Brook*. However, given the COVID situation, we will have to remain flexible with respect to work priorities and able to change quickly to meet RCN demands with our reduced capacity.

And, finally, we need to remain flexible with respect to our COVID posture and protection measures – we are learning more everyday, both from DND/CAF leadership and from medical authorities, and so we may be tweaking our policies over the next few weeks in order to best keep us safe while delivering everything we can for the RCN and the government.

Work Priorities

- CAL SWP completion and undocking to support VAN IMSRT and SCC;
- WIN SWP in preparation for RIMPAC and Force Employment summer 2022;
- VAN DRP in preparation for IMSRT, SCC, then RIMPAC and Force Employment; and
- COR EDWP support and reactivation in preparation for TRP this year.
