

FMF Cape Breton – Op LASER Update 29 December 2021

**Current Posture:
3A “Surge” – Change to 3B “Sustain” 4 Jan 22**

Update Message

A large number of people are on leave this week – well-deserved! Leading up to the holiday period, we continued to see very good output in terms of the amount of work we were executing in various ships and submarines, so thank you for your continued focus despite the impending break. We also had a great FMFCB Potluck and raffle – it was fantastic to be able to meet with one another more socially at work, given that the pandemic has precluded this for so long.

That said, the COVID risk is, unfortunately, increasing again. As such, FMFCB is changing to the “3B Sustain” posture 4 Jan 22. This will ensure that we can mitigate risk to the work force while also providing the best possibility of meeting RCN readiness requirements. Given the limited amount of time we had to prepare for this posture change compared to those in the past, there are likely to be a few bumps in terms of efficiently executing the re-prioritized service delivery work – please remain flexible and engaged as we make this change.

2021 has had a lot of challenges, but hopefully many of you saw a lot of reward in achieving all that we have accomplished at FMFCB – we have been a huge enabler for RCN operations, of which we can all be proud!

Work Priorities

- CAL SWP completion and undocking to support VAN IMSRT and SCC;
- WIN SWP in preparation for RIMPAC and Force Employment summer 2022;
- VAN DRP in preparation for IMSRT, SCC, then RIMPAC and Force Employment; and
- COR EDWP support and reactivation in preparation for TRP this year.
